

Explanation

Above is the box plot showcasing the 25th percentile, median, and 75th percentiles for each of the 10 websites as resolved by the three different resolvers, mydig (blue), local (red), and google (orange).

Below, on the left, is the entire table of raw data divided by mydig, local, and google as columns, and the 10 tests per each website as rows.

To the right are the statistical analyses (average, 25th percentile, median, and 75th percentile) sectioned off by websites.
